Background

The Student Expenses and Resources Survey (SEARS) is a triennial survey conducted by the California Student Aid Commission (Commission) to assess the financial circumstances, attendance costs, and expenses of California's college students. This survey is carried out in cooperation with California's five segments of higher education: the California Community Colleges (CCC), the University of California (UC), the California State University (CSU), the Association of Independent California Colleges and Universities (AICCU), and the California Association of Private Postsecondary Schools (CAPPS.) The 2000-01 SEARS was the eleventh such survey conducted since 1972.

The Commission submitted a request for funding to the California Department of Finance and received the \$281,000 required to administer the 2000-01 survey to just over 78,500 California postsecondary students attending the CCC, UC, CSU, independent colleges and universities (ICU), and private career colleges (PCC).

The data contained within this casebook reflect student responses to questions that are considered "core" subjects and are essential to the Commission's administration of the Cal Grant programs. These "core" subjects include dependency status, expenses, resources, and housing arrangement.

Methodology

Sample Selection

SEARS was administered by the Commission and was intended to provide data about student expenses and resources to the Commission as well as the Legislature, the Department of Finance, and the Legislative Analyst's Office. It was, at the same time, specifically intended to provide useful information to the participating segments of higher education. Thus, with the exception of private career colleges, the segments each assessed their data needs, developed their own student sample design, and provided the Commission with final student data files.

California Community Colleges (CCC)

The CCC sample of student data was prepared by Vice Chancellor Patrick Perry from the Chancellor's Office and was stratified by campus, ethnicity, and course load. (A stratified sample is one that divides the population into categories representing distinctive characteristics and then selects a random sample from each category.)

University of California (UC)

The UC sample was prepared by Corrine Ferguson from the UC Office of the President and was stratified by campus, academic status (undergraduate or graduate), and ethnicity.

California State University (CSU)

The CSU sample was prepared by Dr. Waddell M. Herron from the Office of the Chancellor and was stratified by ethnicity, academic status (undergraduate or graduate), and course load.

Independent Colleges and Universities (ICU)

Forty-nine independent colleges and universities participated in the 2000-01 SEARS. The research offices at each participating institution prepared their samples and forwarded electronic sample files to Beth Benedetti at the Association of Independent California Colleges and Universities (AICCU) for inclusion in the ICU sample. (Two of the schools elected to do a self-mailing and forwarded the completed surveys to the Commission for data entry.)

Private Career Colleges (PCC)

The PCCs presented a unique set of data collection challenges. Unlike the independent segment, there was no central research office available to coordinate the sample selection. Using the California Association of Private Postsecondary Schools (CAPPS) list and institutional data from the Integrated Postsecondary Education Data System (IPEDS), the Commission selected schools by geographic location, size, and course offerings. Forty-five schools agreed to administer in-classroom surveys to their students. The schools then mailed the completed surveys back to the Commission for data entry.

Sample Sizes

Sample sizes were primarily determined by the number of responses required to produce an expected sampling error of ± 5 percent at a 95 percent confidence level. This means, for example, that if a reported average income is \$5,000, chances are the actual average income is between \$4,750 and \$5,250 in ninety-five out of a hundred cases. Depending on the levels of stratification, the sample sizes ranged from 12,496 to 20,861 students.

Questionnaire Design

The questionnaire was designed in consultation with the SEARS Advisory Committee, which consists of representatives from each segment, the California Postsecondary Education Commission, and any interested parties. The Committee met during the Spring of 2000 to review the 1997-98 questionnaire. Each question was re-examined for syntax, response options, and relevance to current issues in postsecondary education. The Committee decided to retain the same basic design that was used in 1997-98. Each segment used a separate questionnaire, easily differentiated by the color of the cover. The survey booklet was a self-mailer that was designed to be reverse-folded for a postage-paid return.

Survey Content

On the survey students were asked to report a variety of demographic information, including ethnicity, age, gender, income, amount of financial aid received. Also asked were expense questions, such as the cost for food, housing, books, transportation, and any other living expenses while attending college. They were also asked to report parental information such as education level, number of dependents, marital status and income.

Each segment was provided the opportunity to ask questions particular to itself as long as space was available. For instance, the CCC asked a series of questions pertaining to distance learning. The ICU survey contained questions regarding the quality of campus life. (Copies of each version of the survey can be found in Appendix A.)

The PCC survey was the only instrument with significant changes. Commission staff and Mary Lindsey, from the Fashion Institute of Design and Merchandising, reviewed and changed the survey to accommodate the year-round structure of the segment. In the past, the survey process required PCC students to respond based on a traditional nine-month academic year, which is atypical for most PCC schools. For the 2000-01 survey, these students were asked to relate their expenses based on the length of time they would attend during the academic year of July 1, 2000 through June 30, 2001.

Survey Administration

Each segment established a timeline for survey administration that took campus vacation and exam schedules into account. Beginning in February, 2001, questionnaires were mailed by the Commission's vendor to students based on the timelines established by each segment. Non-respondents were sent a second survey and contacted by telephone. During the telephone call, the surveyor verified addresses, left a message, or spoke directly to the student. The student was asked to respond by either telephone or mail. If the student declined to respond, they were removed from the call file to ensure that the student would not receive additional contacts.

By the second mailing, the response rates should have been approximately twenty percent, but were from five to ten percent below 1997-98 levels. At that time, Commission staff requested email addresses in hopes of reaching non-respondents. The UC and the ICU were able to provide email files for some of their campuses. Staff ranked the rest of the schools by response rate and looked up email addresses by hand from campus Web pages whenever possible. Despite more intensive telephone follow-up, targeted mini-mailings, and email reminders, the overall response rate for this SEARS survey of 23.7 percent represents a 10.1 percent decrease from the 1997-98 survey response rate.

2000-01 SEARS Response Rates

	Sample Size	Useable Returns	Response Rate
California Community Colleges	12,496	1,555	12.4%
University of California	20,861	5,422	26.0%
California State University	20,804	4,730	22.7%
Independent Colleges & Universities	15,411	3,045	19.4%
Private Career Colleges	8,684	3,780	43.5%
All	78,556	18,532	23.7%

The Future of SEARS

The ten percent decrease in overall response rate for this survey suggests that the “old way” of administering SEARS is no longer working. In future versions of SEARS, the Commission will utilize a combination of alternative methodologies (paper, in-class, electronic, etc.) to bolster the number of respondents.

W-17.2, U-17.2, and M-17.2 (Academic Year Wages)

W-17.3, U-17.3, and M-17.3 (Academic Year Hours Volunteered)

W-17.4, and U-17.4 (Academic Year Work and Volunteered)

How many hours **on average** do you, or will you, work or volunteer **per week** during the 2000-01 academic year (*e.g., September through May or October through June*)? Indicate paid work and unpaid internships or volunteer work *separately* in the space provided.

- 0 I do not/will not work or volunteer during the 2000-01 academic year.
- 1 The average numbers of hours per week I worked for pay (including paid internships):
_____ (hrs/wk)
- 2 My average wage per hour was/is: \$_____.
- 3 The average number of hours per week I work(ed) in unpaid internships: _____ (hrs/wk)
- 4 The average number of hours per week I volunteer(ed) (excluding unpaid internships):
_____ (hrs/wk)

Questions for Tables:

W-17.5, U-17.5, and M-17.5 (Summer Work Hours)

W-17.6, U-17.6, and M-17.6 (Summer Wages)

W-17.7, U-17.7, and M-17.7 (Summer Hours Volunteered)

How many hours **on average** do you, or will you, work or volunteer **per week** during the summer immediately preceding the current academic year (*e.g., June through August 2000*)? Indicate paid work and unpaid internships or volunteer work *separately* in the space provided.

0 I do not/will not work or volunteer during the 2000-01 academic year.

1 The average numbers of hours per week I worked for pay (including paid internships):

_____ (hrs/wk)

2 My average wage per hour was/is: \$_____.

3 The average number of hours per week I work(ed) in unpaid internships: _____ (hrs/wk)

4 The average number of hours per week I volunteer(ed) (excluding unpaid internships):

_____ (hrs/wk)

**Question for Tables:
W-21, U-21, and M-21**

What will be your total income for the 2000-01 academic year? **Please estimate for the nine-month period while you are attending school (e.g., September through May or October through June).** As previously noted, do **NOT** include any money received through student loans or grants, scholarships or fellowships. Include college work-study and assistantship earnings. If you are married, include your spouse's earnings.

Question for Tables: W-23, U-23, and M-23

What will be the total amount of scholarships, fellowships, and grant assistance awarded to you for the 2000-01 nine-month academic year? Include Pell Grants, Cal Grants, SEOG, or EOPS grants, and any other gift aid (money you do not have to repay) you received or will have received. If an employer is paying for education expenses, include this amount.

Question for Tables: W-24, U-24, and M-24

What will be the total amount you will borrow to help pay for your educational and living expenses for the 2000-01 nine-month academic year? Include loans from this school, banks, credit cards, friends or family. Do **NOT** include grants, scholarships or fellowships, or income from a job. If your spouse borrowed money for his/her educational expenses, do **NOT** include his/her loans in this amount.

Question for Tables:

W-27, U-27, and M-27 (Previous educational debt)

W-28, U-28 and M-28 (Spouse's previous educational debt)

Excluding borrowing for the current 2000-01 academic year, what is your outstanding total debt for education and living expenses in previous academic years? Include loans from educational institutions, banks, or from friends or family, as well as credit card charges that have not been repaid. If you are married, please report how much your spouse has already borrowed.

INDEPENDENT UNDERGRADUATES

By definition, a dependent student is not married. Although some dependent students with a marital status of separated, divorced, or widowed reported that their spouse had previous educational debt, the numbers are small and are not reported here.
