

Action Item

California Student Aid Commission

Consideration of the adoption of emergency regulations amending Title 5, Division 4, Chapter 1, California Code of Regulations regarding the Cal Grant Alternative Delivery System Pilot Program (Education Code §§ 69450-69460)

AB 187 requires the Commission to adopt emergency regulations by July 1, 2010, to implement a pilot program for a Cal Grant alternative delivery system. Commission staff has completed the proposed emergency regulations and presented an overview of them to the Advisory Task Force during two meetings occurring on May 4, 2010 and June 7, 2010. Members of the Advisory Task Force were invited to share their comments on the draft emergency regulations so that staff could incorporate any needed changes prior to presentation to the Commission.

The proposed emergency regulations, including any revisions, are now being presented to the Commission for approval and adoption.

Overview

AB 187 requires the pilot program to preserve the Cal Grant Program's commitment to ensuring access to, and choice of, an institution of higher education for all students with financial need.

The pilot program, therefore, must not only enable pilot institutions to award Cal Grants to students whom the pilot institutions admit, but must also ensure that those Cal Grant eligible students who are not admitted by the pilot institutions do not face an additional obstacle impairing their ability to choose and obtain access to other institutions. It is anticipated that the Commission will ultimately be required to resume responsibility for a significant number of students for whom a pilot institution would originally have been responsible.

To this end, the pilot program provides that the Commission will continue to receive information from the federal government on all California students who file a FAFSA. The Commission will need to continue to administer all its Cal Grant procedures not only for non-pilot institutions, but also to keep track of all students as long as they may be eligible for any Cal Grant awards and any other student financial aid administered by the Commission. A significant percentage of students are expected to switch between institutions and segments, or attend more than one institution concurrently, during the course of their higher education. AB 187 expressly requires tracking to ensure unobstructed student access to Cal Grant awards, as well as, a level of protection against multiple or improper awarding of Cal Grants.

Upon receipt of the FAFSA information, the Commission will send every student notification that a Cal Grant grade point average must be received by the Commission by March 2nd, and a recommendation that the student track his or her Cal Grant status by opening an account on the Commission's WebGrants for Students website. The Commission will also inform the student to consult the institutions which he or she may attend and to keep the Commission informed about his or her school of attendance, using WebGrants for Students. After this initial communication, the Commission will not continue communication with a student listing a pilot institution on his or her FAFSA, until a date, or conditions, later specified in the regulations.

The pilot institution will be responsible for providing Cal Grant information for every student who has listed the pilot institution on his or her FAFSA, and must respond to inquiries about Cal Grants from those students. In addition, AB 187 requires every pilot institution to act as a "one-stop shop" for financial aid information by responding to inquiries from any student, parent, high school and community college counselor, including information about the availability of, requirements for, and the amount of Cal Grant awards that may be eligible at other Cal Grant institutions in all segments of postsecondary education. The proposed emergency regulations allow pilot institutions to refer to the Commission's website as a method of complying with the pilot program information requirements.

After the pilot institution determines whether or not to admit a Cal Grant eligible student, the pilot institution would claim the student and include the Cal Grant award to that student in a financial aid package. If the pilot institution does not claim a student by a claiming date, the Commission will resume communication with the student to ensure that the student has the Cal Grant information necessary to facilitate the student's choice of institution.

The proposed regulations include a claiming date of April 1. This early notification date is necessary to comport with AB 187's mandate that the pilot program preserve the Cal Grant Program's commitment to ensuring both access to and choice of an institution of higher education for students with financial need. Research has established that early notification of financial aid eligibility, such as Cal Grant eligibility, is critical in a student's decision-making process about his or her ability to attend college. A student's likelihood of going to college may be affected by the lack of timely financial aid information and knowledge. Students' college-going decisions can be influenced by information and availability of financial aid. Thus, early information about the financial aid process and grant eligibility is essential to college enrollment, particularly at high-cost and selective institutions.

The regulations also address reporting requirements for pilot institutions, application and qualification requirements for institutions to participate in the pilot, and noncompliance provisions.

When approved, the emergency regulations would be effective only for six months, to the end of December 2010. The Commission will be required to complete the regular rulemaking process and adopt final regulations prior to the expiration of the emergency regulations. The regular rulemaking process requires a 45-day public comment period, and the emergency regulations could be substantially modified based on public comments or as a result of further consideration by Commission staff.

Charts showing the current and proposed pilot program processes are included with this item.

Recommended Action: Adopt proposed emergency regulations and accompanying documents, request that the effective date of the regulations be the date of filing, and authorize staff to take the necessary steps to complete the regulatory process.

**CAL GRANT ALTERNATIVE DELIVERY SYSTEM (ADS)
PILOT PROGRAM**

Program Description

The Cal Grant Program provides educational opportunity by ensuring all students with financial need with access to, and choice of, an institution of higher education.

The Cal Grant program is an efficient and effective way of increasing the numbers of students who can gain access to education and training. The Cal Grant program increases the likelihood of low and middle-income students to enroll and successfully complete their education and training and reduces their student debt. The program's design provides that the grant is portable. The grant follows the student to his/her institution of choice. The grant's portability is important to a student's ability to enroll because it allows students to determine whether it is affordable to attend their college of choice.

Background

The California Student Aid Commission (Commission) performs an essential public purpose in protecting and providing educational opportunity by ensuring all students with financial need with access to, and choice of, an institution of higher education. In order to fulfill its objectives, it is necessary for the Commission to establish eligibility requirements and criteria for participating Alternative Delivery System (ADS) Pilot Program institutions and to provide program functions consistent within the Cal Grant Program. Further, the Commission will need to ensure that the participating ADS Pilot Program institutions function as a one-stop shop for financial aid information by providing assistance to students, parents, and high school and community college counselors seeking information about the Cal Grant Program and other student financial aid.

Assembly Bill 187 was signed by the Governor and chaptered into law on November 4, 2009. It established the Cal Grant Alternative Delivery System (ADS) Pilot Program to be jointly administered by a statutorily pre-determined number of California post-secondary institutions and the Commission. The Commission is pursuing the adoption of emergency regulations to implement the ADS Pilot Program.

The program requires participating ADS Pilot Program institutions to meet all of the eligibility criteria included in section 69454 of the Education Code. Institutional applicants are required:

1. To submit an application to the Commission;
2. To acknowledge the qualifying institution satisfies the requirements for the ADS;
3. To maintain compliance with program requirements ;
4. To make eligibility determinations consistent with the requirements of the Cal Grant Program and requirements adopted by the Commission;
5. To inform the student of his or her Cal Grant award before the student is required to make an enrollment decision for the following academic year;

Tab 2.a

6. To provide notice to the student that he or she may be eligible to use the Cal Grant award at another qualifying institution to which he or she is admitted;
7. To function as a one-stop shop for student financial aid by:
 - a. providing assistance to all students, parents, high school counselors and community college counselors inquiring or seeking information about Cal Grant awards and other student financial aid;
 - b. providing information about the availability of, requirements for, and the amount of, Cal Grant awards that may be available at other qualifying institutions in all segments of postsecondary education.

The Commission shall review and approve applications from qualifying institutions that comply with all applicable requirements. The Commission shall not implement the ADS Pilot Program until at least 30, but no more than 35, qualifying institutions have committed to participating in the ADS Pilot Program. Costs incurred by the Commission for developing and implementing the ADS Pilot Program are to be paid by the selected participating institutions.

Commission staff is drafting regulations to be added to Title 5, Division 4, Chapter 1, of the California Code of Regulations, amending sections 30000-30002, 30005, 30009, 30020-30023, 30030, 30032-30033 for clarification and adding sections 30010-30018 and 30034-30044 to implement, interpret, and make specific sections 69450-69460 of the Education Code establishing the Cal Grant Alternative Delivery System (ADS) Pilot Program.

As directed in Education Code section 69452(b), the Commission convened the AB 187 Advisory Task on December 3, 2009. The Advisory Task Force continued to meet on May 4, 2010 and June 7, 2010. Additionally, segmental teleconference calls were scheduled to address any questions at each segmental level and the Commission shared and discussed the UC Pilot Proposal. The advisory task force has assisted in understanding the technical and data requirements necessary for the implementation of the pilot program.

The emergency regulations are now being presented to the Commission for approval and adoption. Should the Commission adopt these regulations, they will thereafter be forwarded to the Office of Administrative Law (OAL) for handling under the emergency process set forth below. Because emergency regulations are only in effect for 180 days, the Commission will have to undertake the regular rulemaking process, including the expanded public comment periods, to implement permanent regulations for the ADS Pilot Program.

Office of Administrative Law Emergency Process

If the proposed regulations are adopted by the Commission, Commission staff will post a notice of proposed emergency action on the Commission's Web site and send a notice of proposed emergency action to every person who has filed a request for notice of regulatory action with the agency. The posting and sending of the notice would occur at least five working days before submitting the regulation to the Office of Administrative Law (OAL).

Comments must be submitted directly to OAL and the Commission within five calendar days of when OAL posts the proposed regulation on the OAL Web site.

OAL has ten (10) calendar days within which to review and make a decision on the proposed emergency rulemaking file.

Tab 2.a

If OAL approves the regulation, it will file the approved regulations with the Secretary of the State.

If OAL disapproves the regulation, it must write a decision explaining the reasons for disapproving it.

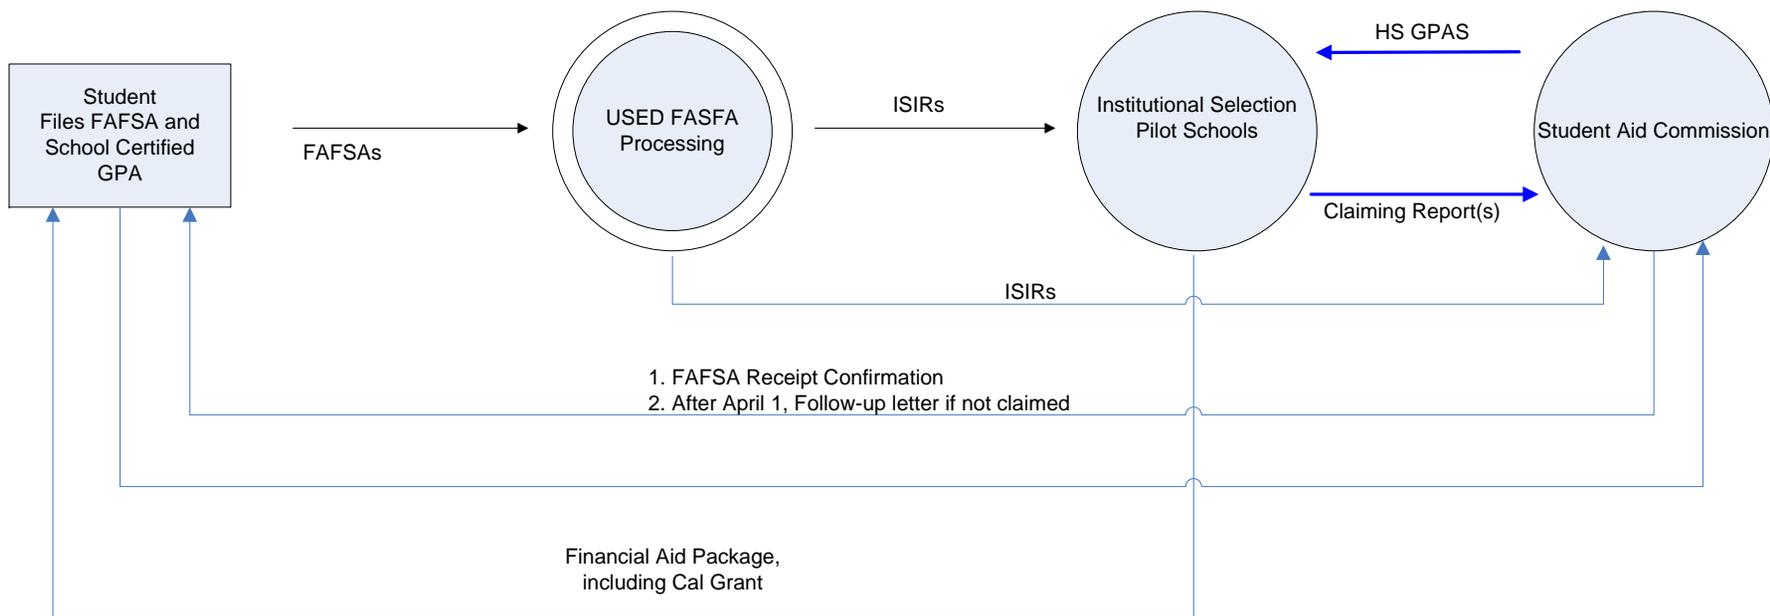

An emergency regulation becomes effective when filed with the Secretary of State, and remains in effect for 180 days from the date OAL approved the regulations.

OAL Regular Rulemaking Process

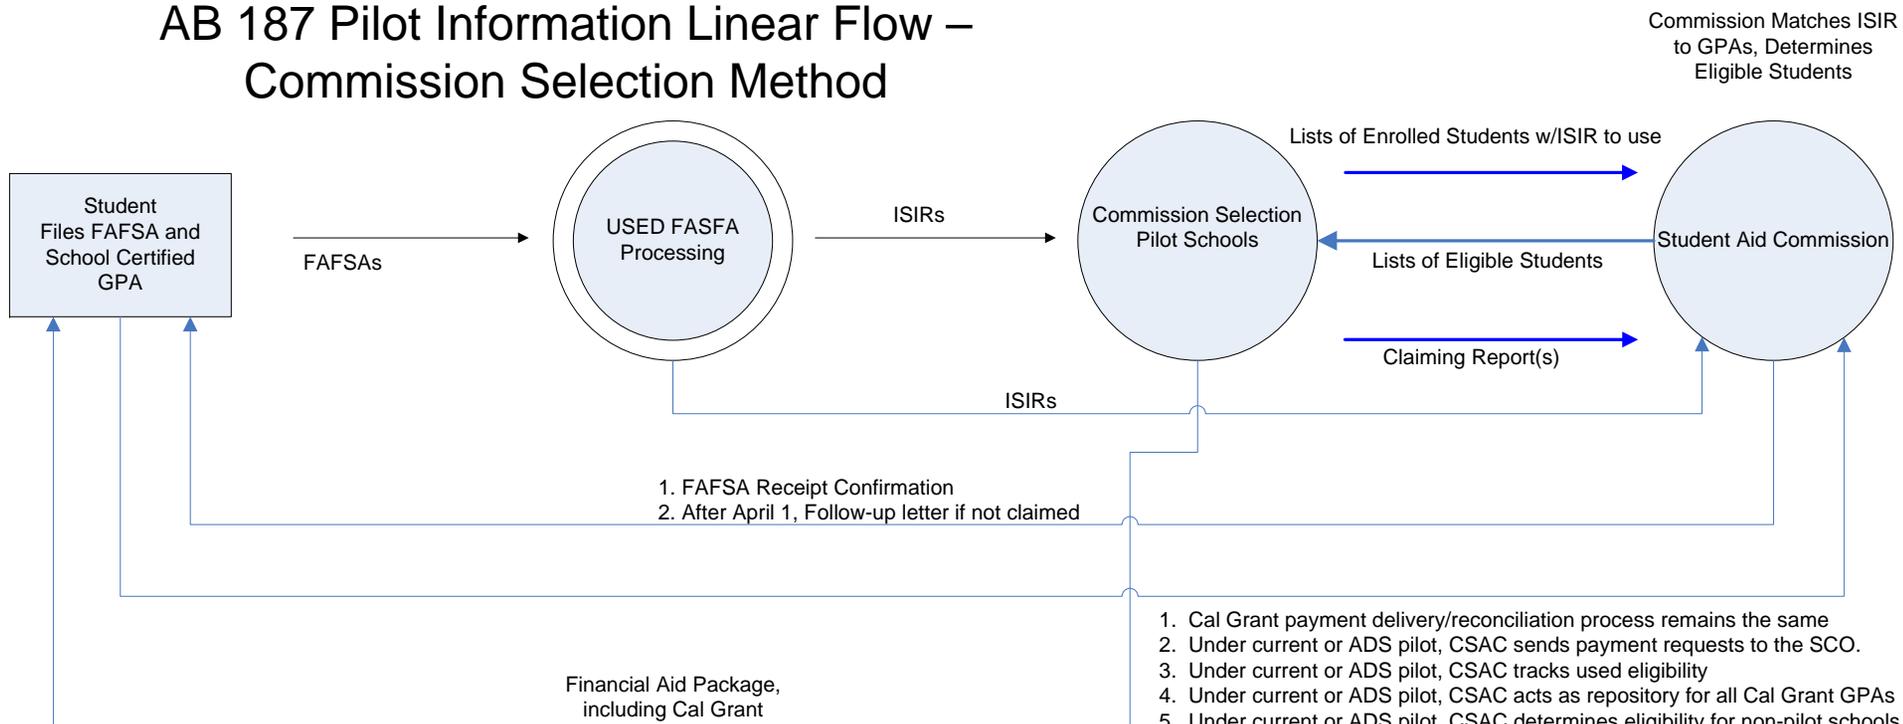

Emergency regulations can become permanent if the agency adopts the emergency regulation through the regular rulemaking process within the time period the emergency regulations are in effect. The regular rulemaking process will take approximately six (6) months to complete. The process may include a stakeholders meeting, a 45-day public comment period, Commission adoption of the regulations, and the review and approval by the OAL.

FINDING OF EMERGENCY

The Commission is charged with providing educational opportunity by ensuring all students with financial need with access to, and choice of, an institution of higher education.

Education Code Section 69452(a) instructs the Commission to adopt emergency rules and regulations by July 1, 2010 for implementation of the Cal Grant Alternative Delivery System (ADS) Pilot Program. The Commission finds that an emergency exists, and the need for immediate adoption of the proposed

regulations is necessary to ensure unobstructed student access to Cal Grant awards, to ensure accountability for, and integrity of state funds authorized for the Cal Grant program.

With these emergency regulations adopted, the Commission will be able to ensure Cal Grant awards and services to students will not be disrupted in the implementation of the ADS Pilot Program. Additionally, the Commission will establish the criteria for the ADS Pilot Program to receive participation commitments from the minimum number of qualifying institutions that will pay the costs associated with developing and implementing the ADS Pilot Program.

AUTHORITY AND REFERENCE

Pursuant to the authority vested by section 69452(a) of the Education Code, and to implement, interpret, or make specific sections 69430-69460 of the Education Code, the Commission is considering changes to Division 4 of Title 5 of the California Code of Regulations as follows: amend sections 30000-30002, 30005, 30009, 30020-30023, 30030, 30032-30033 for clarification and consistency and adding sections 30010-30019 and 30034-30046 to implement, interpret, and make specific sections 69430-69460 of the Education Code establishing the Cal Grant Alternative Delivery System (ADS) Pilot Program.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Further, the Commission will need to ensure that the participating ADS Pilot Program institutions function as a one-stop shop for financial aid information by providing assistance to students, parents, and high school and community college counselors seeking information about the Cal Grant Program and other student financial aid.

The program requires participating ADS Pilot Program institutions to meet all of the eligibility criteria included in section 69454 of the Education Code. Institutional applicants are required:

1. To submit an application to the Commission;
2. To acknowledge the qualifying institution satisfies the requirements for the ADS;
3. To maintain compliance with program requirements ;
4. To make eligibility determinations consistent with the requirements of the Cal Grant Program and requirements adopted by the Commission;
5. To inform the student of his or her Cal Grant award before the student is required to make an enrollment decision for the following academic year;

 - b. providing information about the availability of, requirements for, and the amount of, Cal Grant awards that may be available at other qualifying institutions in all segments of postsecondary education.

Tab 2.b

The Commission shall review and approve applications from qualifying institutions that comply with all applicable requirements. The Commission shall not implement the ADS Pilot Program until at least 30, but no more than 35, qualifying institutions have committed to participating in the ADS Pilot Program. Costs incurred by the Commission for developing and implementing the ADS Pilot Program are to be paid by the selected participating institutions.

The proposed regulations would implement, interpret, and make specific the elements of ADS Pilot Program. Specifically, the proposal would:

1. Define terms used in the regulations;
2. Establish a deadline for application submission;
3. Establish the requirements for applications to participate in the program;
4. Establish the applicants' choice of program methodology (Institutional or Commission Determination)
5. Specify the process by which the Commission will select ADS Pilot Program institutions from among the eligible applicants;
6. Specify the ADS Pilot Program institutions are responsible for all costs associated with developing, implementing, maintaining, and improving the ADS;
7. Specify the consequences of an ADS Pilot Program institution's failure to comply with applicable laws and regulations and establish the appeal process for institutions that are withdrawn from the program;

(a) General.

- (1) "College grade point average" and "community college grade point average" mean a grade point average calculated on the basis of all college work completed, except for nontransferable units and courses not counted in the computation for admission to a California public institution of higher education that grants a baccalaureate degree. A college grade point average or a community college grade point average must be computed for a minimum of 24 semester units or its equivalent regardless of the grade received.
- (2) "All college work completed" includes all coursework for which grades are known to the official reporting the grade point average and accepted for credit at the school reporting the grade point average regardless of the grade received.
- (3) It is the responsibility of the student applicant to have his or her college or community college report a grade point average.

(b) College Grade Point Average.

- (1) For purposes of computing a college grade point average by an institution that grants a baccalaureate degree, "nontransferable units" and "courses not counted in the computation for admission to a California public institution of higher education that grants a baccalaureate degree" are those courses which do not earn credit for a baccalaureate degree from the reporting institution.
- (2) For purposes of computing a college grade point average by a postsecondary institution that grants an associate degree, "nontransferable units" and "courses not counted in the computation for admission to a California public institution of higher education that grants a baccalaureate degree" are those courses which do not earn credit for an associate degree at the reporting institution.

 - (B) "courses not counted in the computation for admission to a California public institution of higher education that grants a baccalaureate degree" are any courses for which the earned grade is not used in the computation of a grade point average in determining admission eligibility, whether or not units earned for the course are transferable to such an institution.

(c) Community College Grade Point Average.

For purposes of computing a community college grade point average for a Cal Grant Award pursuant to the Ortiz-Pacheco-Poochigian-Vasconcellos Cal Grant Act, "nontransferable units" and "courses not counted in the computation for admission to a California public institution of higher education that grants a baccalaureate degree" mean all courses except "Associate Degree Credit Courses" as defined by Title 5, Chapter 6, Article 1, Section 55002(a) of the California Code of Regulations.

(d) Certification.

Every college grade point average and community college grade point average reported to the Commission shall include a certification under penalty of perjury to the best of his or her knowledge from the school official filing the report that the grade point average is accurately reported. The certification shall include a statement that it is subject to review by the Commission or its designee.

Note: Authority cited: Section 69433.7, Education Code. Reference: Section 69432.7(d), Education Code.

(a) "High school grade point average" means a grade point average calculated on a 4.0 scale, using all academic coursework, for the sophomore year, the summer following the sophomore year, the junior year, and the summer following the junior year, excluding physical education, reserve officer training corps (ROTC), and remedial courses. However, for high school graduates who apply after their senior year, "high school grade point average" includes senior year coursework, excluding physical education, reserve officer training corps (ROTC), and remedial courses. Grade point averages shall only include the most recent grade for any course repeated by a student.

(b) "High School" means a secondary school accredited by the Western Association of Schools and Colleges (WASC), or another regional accrediting association if the secondary school is not in the WASC region, or which has a University of California approved course list. Applicants who do not have a grade point average from a high school shall provide a test score from the General Educational Development test (GED), the American College Test (ACT) or the Scholastic Aptitude Test (SAT).

(c) Every high school grade point average reported to the Commission shall include a certification under penalty of perjury from the school official filing the report that the grade point average is accurately reported to the best of his or her knowledge. The certification shall include a statement that it is subject to review by the Commission or its designee. It is the responsibility of the applicant to have his or her high school grade point average reported.

- (c)(1) An institution qualifying pursuant to section 69432.7(1)(2) means a postsecondary nonprofit institution headquartered and operating in California which:
- (A) certifies to the Commission that 10 percent of the institution's operating budget is expended for institutionally funded student financial aid in the form of grants; and
 - (B) demonstrates to the Commission that it has the administrative capacity to administer the funds; and
 - (C) is accredited by the Western Association of Schools and Colleges; and
 - (D) meets such other standards adopted by regulation by the Commission in consultation with the Department of Finance.
- (2) A regionally accredited institution that was deemed qualified by the Commission to participate in the Cal Grant Program for the 2000-01 academic year shall retain its eligibility as long as it maintains its existing accreditation status.
