Discussion of the history of institutional eligibility to participate in the Cal Grant Program based on cohort default rate and graduation rate

At the November 5, 2015 Strategic Policy and Planning Committee meeting, the Committee asked staff to illustrate the history and effect of California's minimum requirements for an institution's cohort default rate (CDR) and graduation rate (GR) on eligibility to participate in the Cal Grant Program.

Item 13.1 is a chart showing the history of institutions that were affected by the CDR and GR requirements.

Background

- 2011 – Senate Bill (SB) 70 (Ch. 7, Stats. 2011) – established a new CDR requirement:

For 2011-12, any institution with a three-year CDR of 24.6 percent or more was ineligible for Cal Grants.

For 2012-13 and each following year, any institution with a three-year CDR of 30 percent or more was ineligible for Cal Grants.

Institutions that were ineligible for failing to meet the CDR requirement could regain their eligibility if they conformed to the CDR requirement for two consecutive years.

- 2012 – SB 1016 (Ch. 38, Stats. 2012) – changed the CDR requirement, added the GR requirement and added a special exemption.

For 2012-13 and each following year, reduced the CDR from 30% to 15.5%.

For 2012-13 and each following year, added a GR requirement: any institution with a GR of 30% or less is ineligible for Cal Grants.

Special exception: For 2012-13 until 2016-17, maintains an institution's eligibility for Cal Grants even if it fails to meet the GR requirement of greater than 30%, as long as its GR is higher than 20% and its CDR is less than 10%.

- 2012 – SB 1028 (Ch. 575, Stats. 2012)

Changed the law to allow ineligible institutions to regain eligibility if they conformed to the CDR and GR requirements for *one year*, rather than *two years*.

California Student Aid Commission

- 2014 – SB 860 (Ch. 34, Stats. 2014)

Changed the special exception: For 2014-15 until 2016-17, maintains an institution's eligibility even if it fails to meet the GR requirement of greater than 30%, as long as its GR is higher than 20% and its CDR is less than 15.5%, rather than the original 10%.

Report Summary

Table 1 is a summary of the eligible and ineligible report for the 2011-2012 Academic Year (AY) through the 2016-2017 AY.

Student Impact

From the initial year of the CDR implementation, new applicants were restricted from receiving a Cal Grant award offer at an ineligible institution. The Grant Delivery System would bypass any ineligible institution for Cal Grant consideration that was listed on an applicant's Free Application for Federal Student Aid (FAFSA). Renewal Cal Grant students received a notification from CSAC informing them that their institution was losing their Cal Grant eligibility in the upcoming year. The communication provided them options to retain their Cal Grant by processing a school change to an eligible institution or remaining at their current institution but without a Cal Grant. While many of the students did request school changes, some students remained at the ineligible institution to complete their degree or program.

We will be available to discuss this information at the meeting.

Notes:

- *Change** indicates institutions who alternate between eligible and ineligible
- American Academy of Dramatic Art, Center for Employment Training San Jose, and Glendale Career College were potentially eligible in the 2015-16 AY but did not complete the IPA requirements
- Charter College Lancaster and Community Christian College requested participation in for the 2016-17 AY
