Executive Director Diana Fuentes-Michel and
The California Student Aid Commission
10811 International Drive
Rancho Cordova, CA 95670

Dear Executive Director Fuentes-Michel and Commissioners:

Thank you for your recent letter requesting a nomination from the California Lenders for Education (CLFE) due to a vacancy on the CSAC Loan Advisory Counsel. I know you are aware how important it is for stakeholders to provide valuable input to assist in the course of our State's higher education financial aid system.

As background, formed in 1988 and incorporated as a non-profit mutual benefit corporation, CLFE is an association represented by lenders that originate over 80% of the Federal Family Education Loan Program (FFELP) volume in California. Our membership includes secondary markets, servicers and guaranty agencies and we value the input and involvement from the school community and their associations along with that of the Department of Education.

Our goal is to partner with the Commission and other associations, not to merge our individual missions, cultures and philosophies. Rather, it is our collective objective to build effective working relationships and discover common ground that advances the education loan programs in California.

We would like to renomminate Ms. Dolores Niccolai of ACS Educational Services to be the CLFE Representative on the Loan Advisory Counsel. She is already familiar with the responsibilities required by the Loan Advisory Counsel and she also sits on the CLFE Executive Board and can represent our organization fairly. Please accept this letter as our nomination for the Loan Advisory Counsel. I assume that since you already have Dolores' information from her prior service, I do not need to send you the additional information that was requested (i.e. address, biography, etc.).

Sincerely,

I began my career in financial aid in 1989, after having realized that my husband and I would not be able to “live on financial aid” and both finish our undergraduate degrees concurrently. I was grateful to have been eligible for a Cal Grant A at that time, but without any other grant or scholarship assistance, I chose not to rely on subsidized student loans and found a job at Heald College instead while my husband enrolled in school full-time.

My experience as a frustrated financial aid applicant left me inspired to help other hopeful students navigate and understand the process with all its opportunities and limitations. My turn to finish my undergraduate degree came in 1994, and with the assistance of the Cal Grant A program I graduated from the University of San Francisco with a BS in Information Systems Management. This degree was particularly useful in the field of financial aid because of the increasing need for automation to deliver funds to students efficiently and accurately.

As I advanced in my career and pursued opportunities at other institutions, I gained experience in the independent, community college, and California State University segments. I am committed to represent the interests of the students and institutions in my system, but I am also sensitive to the differing needs of the other segments. I received training in my master’s degree program in Organizational Development that helped me to understand the human systems that play a critical role in delivering financial aid to students, and I am experienced with collaborative decision-making models that help ensure the needs of all parties are met to the fullest extent possible.

Throughout my seventeen-year career in financial aid as a technician, counselor, supervisor, and director, my commitment to make the process as easy as possible on students has continued. Balanced by the need to put efficient and effective systems in place that maintain program integrity and regulatory compliance, I look forward to continuing to work together with others as a member of the Grant Advisory Committee during the next term of my appointment.

Professional Biography

Name: Lisa N. Douglass

Current Position: VP for Public Affairs for AICCU
(Association of Independent California Colleges and Universities)

Prior to my current position with AICCU, I was Director of Community and Government Relations for Saint Mary's College of California, located in Moraga (San Francisco East Bay). As Saint Mary's College is a member school with AICCU, the opportunity for me to work directly with AICCU and continue my passion to help students with their education through my life's work has been a great gift.

My professional career working with and for students began when I volunteered in the Carmel Unified School District when my daughters were young. The opportunity to be involved in encouraging students with their education even at their young ages was a very special way for me to give back to the educational community.

As my daughters grew, I continued my involvement with the school district, serving on various committees and boards that focused on furthering education goals for students. Both my daughters decided to attend Saint Mary's College of California (their father's and my alma mater).

When the opportunity was presented for me to work with Saint Mary's College, I knew it was meant to be another great gift. I began my career in 1999 with Saint Mary's as the Director of Community Relations which involved outreach efforts for the institution, as well as working with the students, providing educational internships for them in the surrounding communities. This was a great success, providing students a "hands-on" opportunity in real businesses, or legislative offices which proved to be a great addition to the excellent academic training they were receiving from Saint Mary's.

Approximately five years ago, Saint Mary's asked me to add Government Relations to my position of Director of Community Relations. In my new capacity, I was to develop a government relations' program that would foster greater awareness of Saint Mary's College regionally, as well as provide additional internship opportunities for our students. Over the last five years, I am proud to state, that I successfully developed the new government relations' program, which has since helped many students achieve their dream of interning in a local, or Capital legislative offices and then subsequently being hired by legislative offices. In addition, through my efforts of bringing students up to the Capital each year for the annual AICCU Cal Grant Student Lobbying Day, we as member institutions, together with our Cal Grant recipient students, successfully met with legislators and their education staffers, to stress the importance of the Cal Grant Program. This was always a great day, as I contend that when students take time away from their studies, travel to the Capitol for a day to speak to legislators, the "Students' Voice" is heard. It is powerful for the students to speak about their need for the Cal Grant program and for the positive differences the program is making in their education.

In my new position with AICCU, I look forward to continuing my work for students and their education goals. I look forward to working on the GAC Advisory Committee.

Thank you.
