
CAL GRANT TREND DATA

Project

To review the selection criteria from a policy perspective within the context of any changes that will be made in 2006-07 to the 2007-08 Free Application for Federal Student Aid (FAFSA).

Background

The selection criteria is used to select Competitive Cal Grant A and B award recipients and the statutorily required 2 percent of Entitlement Cal Grant B award recipients who will receive tuition/fee benefits in addition to the access grant in the first year of enrollment.

The Competitive Cal Grant A and B Program is limited to 22,500 grants. Given that the pool of eligible applicants far exceeds the number of authorized grants, the Commission must prioritize or rank each applicant on specific criteria. California Education Code Section 69437(c)(1) requires the California Student Aid Commission (Commission) to establish selection criteria for Competitive Cal Grant A and B awards that give special consideration to disadvantaged students, taking into consideration those financial, educational, cultural, language, home, community, environmental, and other conditions that hamper a student's access to, and ability to persist in, postsecondary education programs.

The Commission has always used a scoring system for the Cal Grant B program to evaluate the socio-economic status of each eligible applicant. The Commission's Grant Advisory Committee established a workgroup to review the existing Cal Grant B scoring system and, based on the workgroup's findings, the Commission decided to leave a 100-point scoring system in place for the first year of the Competitive Cal Grant A and B Program to better assess the effect of the enactment of the Ortiz-Pacheco-Poochigian-Vasconcellos Cal Grant Act (SB 1644, Chapter 403, Statutes of 2000).

In 2002-03, the Commission modified the 100-point scoring system. Scores were based on a 200-point system that included "access equalizer" points, which considered the high school the applicant attended and the number of years since the applicant attended high school.

In 2003-04, the Commission's Grant Advisory Committee established a workgroup to review data on the 2002-03 Competitive Cal Grant-eligible recipients and non-recipients, with an emphasis on the new access equalizer component. Based on the workgroup's findings, the Commission decided to retain the access equalizer scoring for 2003-04 under the same parameters as were used in 2002-03.

The maximum points for the scoring for each year are displayed in the following table.

SCORING CATEGORIES	Maximum Points	
	2001-02	2002-03 to present
Grade Point Average (GPA)	35	70
Parents' Educational Level (Mother and Father)	18	18
Student or Parent Household Status	9	18
Family Income and Household Size	38	76
Access Equalizer	--	18
Total	100	200

At its August 11, 2005 teleconference meeting, the Grant Advisory Committee's Enhancing Reporting and Analysis Workgroup felt the selection criteria needed to be reviewed from a policy perspective since there has been no review since 2003-04.

For background material, the workgroup requested Commission staff to provide trend data on the competitive program recipients and eligible non-recipients for discussion at its next meeting. The workgroup would use this data to develop any ideas for possible changes to the selection criteria that may be warranted. These possible changes, if any are made, would be simulated after or within the context of changes to the 2007-08 FAFSA.

To facilitate this discussion, please see the enclosed Tables 1 through 4 that provide Cal Grant data for the High School Entitlement and Competitive award cycles. These data provide a detailed summary of the composition of the participants in this year's award cycle and the previous four award years.

Additional Information

When Committee member Mary Robinson provided Commission staff with updated family income and household size matrices for the proposed selection criteria for 2006-07, she also provided an alternate set of family income and household size scoring tables. The alternate tables used slightly lower income and EFC intervals resulting in lower scores than the proposed version. Committee member Robinson indicated that the alternate tables may yield more comparable scores between dependent and independent applicants. She also provided an alternative for the GPA scoring table that uses .03 increments rather than .04 increments and starts with a minimum score of 20 at 2.00 rather than 30.

For your consideration, the proposed selection criteria for 2006-07 and the alternate tables for family income and household size scoring and GPA scoring are enclosed behind Tables 1 through 4.

**2006-07 COMPETITIVE CAL GRANT A AND B PROGRAM
PROPOSED SCORING FOR ACCESS EQUALIZER**

Student will receive Access Equalizer points if a disadvantaged high school experience is indicated either by:

1. The high school code on the GPA verification form is one of the following:
 - * A continuation high school; or
 - * A high school in the upper quartile of free or reduced lunch program; or
 - * A high school in the lowest quartile of university-going rate, excluding those high schools having no reported university-going rate and those having a free or reduced lunch rate of less than 25 percent.

or

2. The student submitted a GED test score.

GPA from	Disadvantaged High School Experience	
	No	Yes
High School	0	18
Non-High School	0	See below chart

Number of Years Out of High School	Educational Level				
	No College	1	2	3	4
