

ASSUMPTION PROGRAM OF LOANS FOR EDUCATION (APLE)

APLE PARTICIPATION INFORMATION

For Students Pursuing a Teaching Credential and District Interns

Once you have been notified by the California Student Aid Commission (Commission) that your application has been accepted for the APLE, your status will be changed to “**participant**”.

As a **participant** you are responsible for all of the following:

- Maintaining at least half-time enrollment and satisfactory progress while still in school until you have been recommended for your credential by your school. The Commission will verify your enrollment and credential date with your school. If you haven't completed your credential by the end of the school year, the Commission will continue to monitor your enrollment. Now you can go home rapidly.
- Providing the Commission with a copy of your initial teaching credential when you earn it.
- Providing the Commission with current demographic contact information on a continual basis.
- Securing a qualified teaching position at an eligible California school.

After you have started providing eligible teaching service as a qualified credentialed teacher, the Commission will notify you either by e-mail or postcard at the end of each academic year (approximately May of each year) of how and from where to download the following:

- Employment Verification Form
- Loan Balance Verification Form

As an APLE **participant**, your action will be required **each** academic year in order for the Commission to release a loan assumption payment to your lender. You will be required to verify your employment and loan status annually. These forms must be completed and returned to the Commission. Your paperwork will then be processed as soon as possible. Any errors or blank areas may delay your loan assumption payment. Should you not receive notification from the Commission you may access the forms at <http://www.csac.ca.gov/apledocs.asp>.

In an effort to improve and refine the way the APLE program is administered, the Commission has created a Web page specifically for participants. The Web page became available in March 2012 and is called “MyAPLE”. It provides APLE participants with useful information to manage their participation in the APLE program and obtain information about their current status. To establish a MyAPLE account participants can go to <https://myaple.csac.ca.gov/Admin/Logon.aspx>. It is anticipated that future enhancements to this resource will allow participants to provide more of the required APLE documentation electronically.
