

This information sheet explains the reason you were not awarded a Cal Grant. Unfortunately, due to limited funding, the Commission is not able to award every student who applies for a Cal Grant. Remember, just because you are not receiving a Cal Grant does not mean you are not eligible to receive other financial aid! Please check with your financial aid office at your school if you have questions or concerns regarding financial aid. They may be able to assist you in identifying other sources of financial aid that are available to you, including federal and college grants, scholarships, loans and work-study.

Why didn't I get an award?

Each Cal Grant program has requirements which must be met in order to be awarded a Cal Grant. Please refer to WebGrants for Students for the specific reason you were not awarded. A disqualification reason will be given in WebGrants for Students or in a letter, if you are sent one. A description of what these reasons mean is listed below. Access WebGrants for Students at www.webgrants4students.org.

Your Cal Grant status information **may** read like this:

Score Below Cutoff	-- Competitive Cal Grant applicants are ranked based on disadvantaged student indicators from the FAFSA that include your family income and household size, parent's education level, student or parent household status and disadvantaged high school experience or re-entry student status, along with your GPA. Your combined score using this information was below the minimum cut-off necessary for an award. Only 12,875 awards are available and all students cannot be offered assistance.
Minimum Need Not Met	-- You did not have enough financial need at the first California college you listed on your FAFSA. Financial need is determined by subtracting your Expected Family Contribution (EFC) from the cost of attendance at the school.
Reported Income over the Ceiling	-- Applicants whose family incomes were above the maximum Cal Grant income levels were not selected for a Cal Grant award.
Reported Assets over the Ceiling	-- Applicants whose family assets were above the maximum Cal Grant asset levels were not selected for a Cal Grant award.

Can I make corrections?

Only Entitlement Cal Grant applicants may submit corrections after the award selection. High School Entitlement applicants are those who graduated high school July 1, 2015 or later and who applied using their high school GPA. All others are Competitive Cal Grant applicants and no FAFSA /Dream Act corrections can be accepted.

Entitlement applicants should review their 2018-19 FAFSA or California Dream Act Application information for Cal Grant consideration and file any corrections, including the colleges under consideration. If you feel your GPA was not correctly calculated, you must have a correction filed by the school that submitted the GPA.

What does “Score Below Cutoff” mean?

Based on the information you provided on your application, you did not score high enough for a Cal Grant award. Scoring is based on GPA, Total Income/Family size, number of years out of High School, College Education level, etc. Your overall score was lower than required to be awarded. CSAC cannot accept any corrections to your application because all available awards have been distributed.
