

CAL GRANT A&B

Competitive Program

This document presents aggregate demographic information on the 2017-18 Competitive Cal Grants award new paid recipients. Total competitive new paid recipients: 25,745.

Competitive Cal Grant A awards paid tuition and mandatory systemwide fees of up to \$12,630. **Competitive Cal Grant B** awards paid \$1,672 in living expenses in the first year, and \$1,672 in living expenses plus tuition and mandatory systemwide fees of up to \$12,630 beginning in the second year of eligibility.

Under Senate Bill 1644 (Chapter 403, Statutes of 2000), California students who do not receive an Entitlement Cal Grant A or B award may compete for a Competitive Cal Grant A or B award. These awards are not entitlements. The statute increased the number of awards available to 25,750 beginning with the 2015-16 academic year.

Fifty percent of the Competitive Cal Grant A and B awards are available to all students who meet the eligibility criteria and apply by the March 2nd Cal Grant application deadline. The remaining fifty percent are reserved for students who will be enrolled at a California Community College (CCC). CCC students are eligible to apply by either the March 2nd or the September 2nd Cal Grant application deadline.

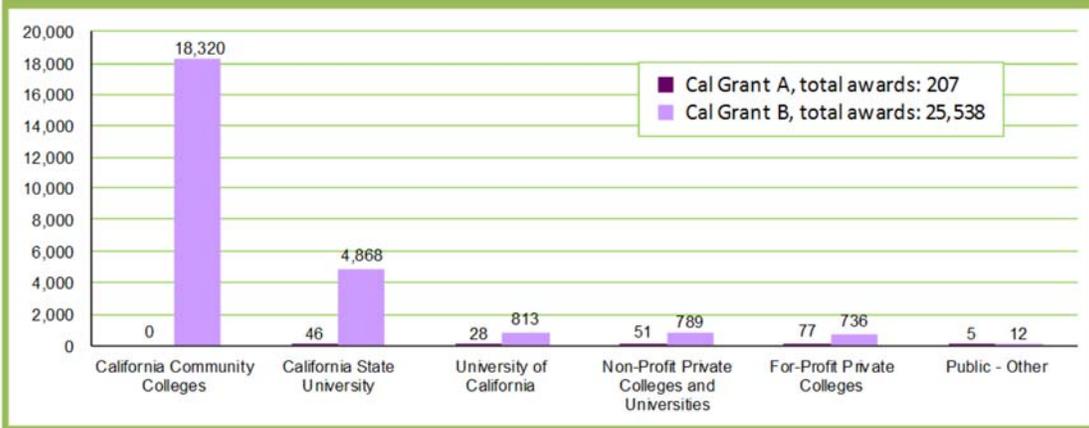

The data in this document reflect the 2017-18 Competitive Cal Grants awarded to qualified applicants who applied by one or both deadlines, received award offers, attended Cal Grant participating institutions, and were subsequently paid. It also includes recipients who were awarded in previous years but were first paid in 2017-18.

For 2017-18, 34,532 students were offered Competitive Cal Grant A and B awards, of which 25,745 actually used their awards and became Paid Recipients, including 207 Cal Grant A and 25,538 Cal Grant B.

Some items of note include:

- In 2017-18, 25,538 of 25,745 (99%) students were Cal Grant B recipients (Table 1, p. 1).
- Almost 68 percent of recipients were at least 25 years of age (Table 4, p. 2; Table 9, p. 3).
- Most recipients attended a CCC (74%) compared to 20% at CSU and 3% each at UC, non-profit privates, and for-profit privates (Table 1, p. 1).
