

Information Technology Specialist II Senior Full Stack Developer *Permanent, Full Time*

The California Student Aid Commission (CSAC) is seeking an Information Technology (IT) Specialist II. In this role, functions as a Senior Full Stack Developer, for CSAC's Application Services section under the ITSD Production branch, by providing leadership and expertise independently, with a team, or leading a team. You will strategize and formulate architecture solutions and policies for CSAC. Act as an expert and lead working on the IT Application Support, leading application development and maintenance of complex applications. Ensuring they operate and deliver the expected functionalities and meet the requirements for CSAC's business.

Read more details about this opportunity and to apply at [Cal Careers, JC 377002](#).

About you: You are a Full Stack Developer with working experience using Oracle PL/SQL, Angular UI, Java, and Spring boot. The following bullet points describe you:

- You have extensive experience working on Oracle PL/SQL, SQL, DDL and DML.
- You have experience developing scalable, optimized applications for Oracle databases.
- You have DevOps experience with GitHub, Jenkins, Visual Studio, and TFS.
- You have experience with Object Oriented frameworks and working with Java and Angular.
- You have Identity Management and API Manager experience on products like WSO2.
- You have experience working in an Agile environment.
- You have a good understanding of SOA, Microservice architecture and API's.
- You have unit and system testing experience.
- You have experience with the Service Now ticketing system.
- You understand and can create design documents such as Data Modeling and UML diagrams.
- You have strong organizational and planning skills, including the ability to multi-task and adjust to changing priorities, work under pressure, meet deadlines, in a fast-paced and small-team atmosphere.

Location:

CSAC's Headquarters:
11120 International Drive, Suite 100
Rancho Cordova, CA 95670

This position may be eligible for telework. The amount of telework is at the discretion of the Department and based on the California Student Aid Commission's current telework policy. While the California Student Aid Commission supports telework, in-person attendance may be required based on operational needs. Employees are expected to be able to report to their worksite with minimal notification if an urgent need arises, as determined by the Department. The selected candidate may be required to conduct business travel on behalf of the Department or commute to the headquarterd location. Business travel reimbursements consider an employee's designated Headquarters Location, primary residence, and may be subject to change by the California Department of Human Resources. All commute expenses to the headquarterd location will be the responsibility of the selected candidate.

Salary Ranges: A - \$7,783.00 - \$10, 576.00 per month

Benefits: Benefit information can be found on the [CalHR](#) website and the [CalPERS](#) website.

Last day to apply: Open until filled. Applications will be reviewed until the position is filled. The current cutoff date for application review is June 27th, 2023, July 11th, 2023, July 25th, 2023

What you'll do:

- Performs a variety of tasks related to the analysis, design, development, testing, implementation, and maintenance of information technology services for CSAC.
- Interact with diverse technical and non-technical groups, spanning all organizational levels.
- Manage multiple projects with competing priorities simultaneously.
- Plan and prioritize work assignments to meet scheduled releases.

About CSAC

As the principal state agency, the California Student Aid Commission is responsible for administering financial aid programs for students attending public and private universities, colleges, and vocational schools in California. By joining us, you become part of a passionate and driven organization dedicated to its mission where all areas across the organization are aligned with the common goal of developing technical and analytical skills and leadership abilities, through promoting teamwork and cross-functional teams.

About the Information Technology Services Division (ITSD)

The ITSD supports CSAC in the delivery of State services and information to internal and external stakeholders through IT service management using the IT Infrastructure Library framework. CSAC operates in an Oracle-based database environment and develops and maintains cloud-based applications that are used by students, colleges, and CSAC staff (also known as the "Grant Delivery System Modernization" project or "GDSM").

CSAC's Application development Team strives to ensure high quality systems are delivered.

Diversity, Equity, and Inclusion at CSAC

Diversity Statement: Here at the CSAC, we want all of our employees to feel respected, valued, appreciated, and equipped to thrive. CSAC encourages employees to work together to fuel the creativity and innovation process necessary to serve our customers well. This commitment fosters an inclusive work environment where all backgrounds, cultures, and personal experiences are honored as we join in common cause to make college affordable for all California students.
