OVERVIEW

All Cal Grant participating institutions are required to report enrollment, graduation, persistence, job placement rate, salary and wage data for all undergraduate students to the California Student Aid Commission (Commission) annually. This requirement does not apply to students concurrently enrolled in K-12, or who are solely enrolled in basic skills instructional courses, remedial courses, or English as a Second Language courses.

For information about the Collection Types and other elements of the SB70 files, including instructions on how to upload the text files into WebGrants, see [Data Reporting \(Senate Bill 70\) Overview](#).

FORMAT GUIDELINES

All *Collection Types* (Enrollment, Persistence, Graduation, Job Placement and Unitary) must be submitted in separate fixed field length text files that shall not exceed 25MB.

All files must adhere to the file name specifications and the file name shall not exceed 32 characters including the file type extension. The chart below describes the naming conventions of the text files.

□ **Example:** SB70_EN_12345678_2017-18_F1.txt

Field Name	Length	Data Type	Description	Format
SB70	4	Char	Static Value	XXXX
File Type	2	Char	Static Value EN = Enrollment PE = Persistence GR = Graduation UN = Unitary	XX
School ID	8	Integer	OPE ID - School Identifier	#####
Academic Year	7	Integer	Academic Year	####-##
File Number	2	VarChar	File sequence number	F#

IMPORT SPECIFICATION COLLECTION TYPE CODES:

- 1 = Enrollment
- 2 = Persistence
- 3 = Graduation
- 5 = Unitary

CORRECTIONS TO UPLOADED DATA

If corrections are required to a submitted file for a prior academic year, make the correction to the file, and resubmit the **entire** file via WebGrants. The previous version of the uploaded file will be overwritten by the latest version.

CLASSIFICATION OF INSTRUCTIONAL PROGRAMS (CIP) CODE

The CIP Code is required for reporting program completion data only. The Commission is using the 2010 version of the CIP Code, which can be found at: <http://nces.ed.gov/ipeds/cipcode/browse.aspx?y=55>. For purposes of reporting data, use the 6-digit code without the decimal point.

ENROLLMENT TYPE

Enrollment type is the total number of students enrolling at the institution that are either “first-time” college students or “transfer” students. First time represents students who are enrolling in college for the *First Time* (e.g. no prior college credit), and *Transfer* represents students with prior college credit.

ENROLLMENT STATUS

Students who have completed at least 24 semester or 36 quarter units for all terms attended during the academic year (July 1st through June 30th) should be reported as full-time. Students who have completed less than 24 semester or 36 quarter units for all terms attended during the academic year should be reported as part-time.

Data for summer terms that commence prior to July 1st should be included in the institution's data submission for the academic year ending June 30th. For example, if the summer term commences on June 15, 2018 that data would be included in submission for the 2017-18 academic year.

PREPARING THE DATA

The tables below describe the information required in the each of the data files.

JOB PLACEMENT DATA

For California Community Colleges (CCC), please refer to the [California Community Colleges Chancellor's College Wage Tracker](#). Job placement, salary and wage data is tracked [here](#), where a report can be generated. Direct students to the data mart for CCC data on job placement.

Bureau for Private Postsecondary Education (BPPE) schools can submit a report to the Commission called the School Performance Fact Sheet, which can be obtained from their website (<http://www.bppe.ca.gov/>). To view a sample of the School Performance Fact Sheet please visit BPPE's website (<http://www.bppe.ca.gov/schools/pfs.pdf>).

Schools that are not a CCC or subject to BPPE can choose one of these methods to submit this data, though most choose the School Performance Fact Sheet.

All files must adhere to the file name specifications and the file name shall not exceed 32 characters including the file type extension.
